I've set up a csv file to be read by ARI, and the link isn't working.

See: <http://sols.org/index.php/share-collaborate/interlibrary-loan-info/using-vdx/ill-directories-and-lists?id=1027>
<http://www.ari-soft.com/images/fbfiles/images/setup.PNG>

Hello,

Populate "Path to CSV file" parameter with the following value:

files/docs/share/interlibrary/MediaInterloanList.csv

Regards,
ARI Soft

Thank you!
This has corrected the issue.
