
can not install Ari Data Table

Posted by Vieriap - 2016/11/23 06:42

I am allready buy Ari Data Table but went I try to install there is comment :
Warning

JInstaller: :Install: Can't find XML setup file.
Error

Unable to find install package..

why

Hello,

Have you unzipped aridatatables_unzip_first.zip archive and use mod_aridatatables.zip archive to install the module?
The archive also contains readme.txt file with instructions.

Regards,
ARI Soft
