## CSV - No data available

Posted by MarcoX1 - 2016/12/18 10:17

---

Hello,

I suddenly have a problem with a CSV. "No data available.". After conversion to HTTPS. Two tables are displayed normally, only one is not! I changed nothing.

I can open an access for the backend, but only by private message. <http://www.ari-soft.com/images/fbfiles/images/statistics.jpg>

Hello,

Send a link to a page where the problem occurs and a temporary access to your J! backend by email please.

Regards,  
ARI Soft
