## Change the search description

Posted by adolcini - 2017/03/10 11:15

---

Hi I'm using Ati-data-tables and I would like to change the word "Search" and make it in green but I didn't find where I can change it.

Can you indicate me the right file.

Many Thanks

Andrea <http://www.ari-soft.com/images/fbfiles/images/Search.png>

Hello,

Do you use "ARI Smart Content" or "ARI Data Tables" extension?

Regards,

ARI Soft

ARI Data Tables".

Thanks

Andrea

Add the following CSS rule to "CSS Styles" parameter in module settings to change text color:

```
.dataTables_filter label {color: green;}
```

"Search" message can be changed in /language/en-GB/en-GB.mod\_aridatatables.sys.ini file. See MOD\_ARIDATATABLES\_DATATABLE\_MESSAGE\_SEARCH key.

Regards,

ARI Soft
