ERROR: Non-static method AriJSONHelper::encode()

Posted by adeshjohnson - 2017/11/07 15:16

_____

I have this error in my website.

Non-static method AriJSONHelper::encode() should not be called statically, assuming $this from incompatible context in

Please help :)

My version is Joomla 2.5.28.

Thank you,

_____

It also says:

Deprecated: Non-static method AriSimpleTemplate::registerFilter() should not be called statically, assuming $this from incompatible context in
/home/admin/web/xxxxxx.com/public_html/modules/mod_aridatatables/includes/kernel/SimpleTemplate/Filters/class.Filter
Base.php on line 24

Please, it's a site in production :)

_____

Hello,

Do you use the latest version of the extension (1.16.4)?

Regards,
ARI Soft
