
Ari Data Tables for WordPress

Posted by tknight - 2018/03/01 16:17

I need to switch my client to WordPress. Love Ari Data tables and have lots of queries running in Joomla. Is there a similar plugin for Wordpress or a way I can use in WordPress? Thank you for any ideas!

Hello,

Sorry, but we don't have this kind of the extension for WordPress.

Regards,
ARI Soft
