
ari table

Posted by ananias - 2018/03/18 12:47

Hi.

I install ari table and i have a problem with my font.
my language is greek and the greek text view "?"

I sent the link what i mean:

<http://www.diaviou-teiste.gr/index.php/2017-09-28-18-13-54/forma>

thanks

Hello,

If you show data from a CSV file and it is not saved in UTF-8 encoding then specify encoding of you file in "CSV -> File encoding" parameter in module settings. Try to use ISO-8859-1 for your case.

Regards,
ARI Soft
