
Numbers are not showing.

Posted by TEChEgO - 2010/08/16 23:38

URL: <http://www.techego.com/results>

Problem:

Using ARI JData Visualizer I placed sample code into an article and everything appears correctly EXCEPT for the "Reference" numbers to the left of the chart. On your example page, <http://smart.ari-soft.com/ari-jdata-visualizer.html>, it shows the numbers 0, 40, 80, 120, 160. Why are these numbers not appearing? I entered my own table and it also does not provide any reference numbers to the left of the chart.

Am i missing something?

Seth

Hello,

This is a conflict with site template styles. Add the following CSS rule, please, to site template CSS file or to 'CSS Styles' parameter in module settings page:

```
.arijdatavisualizer-right
{
    padding: 0 0 0 25px
}
```

Regards,
ARI Soft
