I can not install
Posted by tutam - 2010/08/17 17:33

_____

Hello,
Please advice. I can not install your component. When the installation is written the following message ..

Warning: array_merge(): Argument #1 is not an array in /srv/www/biggest.cz/www/libraries/joomla/installer/helper.php on line 142 Warning: array_merge(): Argument #2 is not an array in /srv/www/biggest.cz/www/libraries/joomla/installer/helper.php on line 142 Warning: Invalid argument supplied for foreach() in /srv/www/biggest.cz/www/libraries/joomla/installer/helper.php on line 187

Can you please advise?
Thanks Martin

_____

Hello,

This error can occur when memory_limit or max_execution_time PHP setting is exhausted. Try to install the extension from folder. For this upload it to your server, unzip it and choose 'Install from directory' option on Joomla! installation page or you can try to use PHP Settings plugin.

Regards,
ARI Soft

_____

Thank you. I tried to install from the folder .. I made a step forward, but I encountered another problem .. :(

* Error! XML setup file in the package can not be found.
    * Path does not contain a valid package

I can not ask for advice?

Everything works .. Sorry, I forgot to record the data in uncompressed form ..
 :blush: :)
