Hello,
I have installed the latest version ARI Data, but am getting " No data available ", for the ARI Data , but it works for HTML Data Table,

and when i make the Server side pagination is NO , it lists all records as shown here
<http://www.waga24.com/desktop.html> and i want to list the first 20 records and then pagination

any help please

kindly

Hello,
These also the error

(mysqli): SET NAMES 'UTF8'
Error (0):

(mysqli): SELECT start_date,end_date FROM items ORDER BY start_date ASC LIMIT 50 LIMIT 0,1
Error (1064): You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'LIMIT 0,1' at line 1

It seems you use server side pagination. In this case remove LIMIT 50 from the query or disable server side pagination in module settings.
