
user point application

Posted by blues - 2020/09/04 09:57

Hi team,

I installed alpha user point and ari plugin with readme guide, where can I config the quiz point and see the result?

Thanks
Blues

Hello,

We think you mean AltaUserPoints. It is a fork of AlphaUserPoints. AlphaUserPoints is not longer supported and not compatible with latest Joomla! versions.

You should install Joomla! plugin and rule for AltaUserPoints for integration with "ARI Quiz".

In plugin settings it is possible to configure when a user will earn points (when complete a quiz successfully, only one time and etc.).

Regards,
ARI Soft
