
Display quiz items with prevquiz condition

Posted by blues - 2020/09/15 06:58

Hi Team,

We'd like to display a TO-DO ari quizzes list via datatables, all these quizzes have prevquiz,we only need to show items with prevquiz passed, any guidance on this?

Thanks
Blues

Hello,

SQL query will look like this:

```
SELECT
  Q.QuizId,
  Q.QuizName
FROM
  #__ariquiz Q INNER JOIN #__ariquiz PQ
    ON Q.PrevQuizId = PQ.QuizId
  INNER JOIN #__ariquizstatisticsinfo SI
    ON PQ.QuizId = SI.QuizId AND SI.Passed = 1 AND SI.UserId = {$UserId}
GROUP BY
  Q.QuizId
```

Regards,
ARI Soft
