
how to config datatables to support child rows

Posted by blues - 2020/10/19 06:52

Hi team,

how to config datatables to support child rows as demo site?

Thanks <http://www.ari-soft.com/images/fbfiles/images/child.PNG>

Hello,

This feature is supported by "DataTable" widget from "ARI Smart Content" extension, but it is not supported by "ARI Data Tables".

Regards,
ARI Soft

It supports only one level. One child row for each master row.

Regards,
ARI Soft
