
Datatables flash export buttons not working

Posted by induriprakash - 2021/01/12 14:42

Hi

This week Data tables export buttons are not working, can you please suggest how we can replace with HTML5 buttons. I've installed latest ARI data tables package, still it is not working.

Hello,

"ARI Data Tables" doesn't support HTML5 button for export. It is supported by DataTable widget from "ARI Smart Content" package.

Regards,
ARI Soft
