
How it is possible to update ARI Data Table

Posted by samik83 - 2024/06/27 15:00

Dear all,

how can I update my ARI Table as new version is available?
I have the order ID and the product key.

Best Regards

Hello,

Open "ARI Data Tables" module settings page and navigate to "Auto-update" tab if you want to enable auto-update.
Enter an API key which you can find in "Member Area" and click "Apply" button:

Hi. how to update the plugins to the latest version?

the ARI Ajax dispatcher & ARI Extensions are still 1.3.0 version

Hello,

The latest version of the extension is available in "Member Area" on our site.

Regards,
ARI Soft
