## custom code

Posted by luisa - 2010/10/06 00:32

---

I am using Ari Table Sorter for one of my tables. I want to insert some custom code either next to the filter or in the div which contains the class tablesorterpager

the code would simply be an image and a link to create a new record in the table.

is there a way i can do this?

Hello,

Template file of paging control for table sorter widget is located by the following path:

\modules\mod\_aridatatables\tmpl\tablesorter\paging.php

Regards,  
ARI Soft
