Hello I'm very glad to own you module on my site, its realy greate. but im looking to some feathures. I like to put into my cvs file some hidden info - easy to switch it on (display) ex.:
I column;II Column
112;1313

Hello,

Could you explain your needs in more details? Do you want to hide some columns from CSV file or specific values?

Regards,
ARI Soft
