Image Slider with video in Sexy Lightbox
Posted by ericrotramel - 2011/02/02 15:09
_____

Hello,

How do I get an image in the slider to launch Lightbox? I've placed the INI file in the slide image folder but nothing is happening. When I select "Lightbox Integration within Image Slider a get a fatal error: Fatal error: Call to a member function enqueueMessage() on a non-object in /home/terrasph/public_html/dev2011/modules/mod_ariimageslider/mod_ariimageslider/kernel/ImageSlider/Lightbox/class. Arisexylightbox.php on line 26

Any help is appreciated.

Hello,

Do you use Joomla! 1.6?

Regards,
ARI Soft

_____

Download and upgrade "ARI Image Slider" module. It should help.

Regards,
ARI Soft

Where are the upgrades located? By the way, I just purchased both of these on Monday. Could they still be the old versions?

_____

"ARI Image Slider" is free module. It can be downloaded here, use "Download ARI Image Slider module for Joomla! 1.5 and 1.6" link.

Regards,

ARI Soft

_____

O.K., getting close. No error with the Lightbox integration. The only thing left is to have the link work. Here's the image path: images/videoStills/twoseeds.jpg

and the INI:

twoseeds.jpg="Two Seeds, Two Stories"

twoseeds.jpg="http://www.terraspheresystems.com/dev2011/media/templates/terrasphere/video/TwoSeeds-TwoStories.m4v?width=960&height=540" rel="sexylightbox">QuickTime video

twoseeds.jpg="TerraSphere"

_____

Place the next content into INI file:

twoseeds.jpg="Two Seeds, Two Stories"

twoseeds.jpg="http://www.terraspheresystems.com/dev2011/media/templates/terrasphere/video/TwoSeeds-TwoStories.m4v"

twoseeds.jpg="TerraSphere"

Regards,
ARI Soft

_____

Still nothing...my cursor isn't changing on rollover either (although I haven't styled it which maybe I need to for this). Am I missing something within the module?

_____

Check that "ARI Sexy Lightbox" module is installed and "System - ARI Sexy Lightbox" plugin is installed and enabled. If it doesn't help, could you provide link to page where we can see this issue and temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,
ARI Soft
