on my site: [www.pixelweb.nl](http://www.pixelweb.nl) I udes the Ari image slider. Works great in Firefox, but in IE the bullits disappear when loading a new image.

Is someone familiar with this problem?

Add the following CSS rule to "CSS Styles" parameter in module settings or to site template CSS file:

```
DIV.nivo-controlNavHolder
```

```
{  
  z-index: 1000;  
}
```

Regards,
