Dear ARI Tech support,

ARI slider is blocking the dropdown menu list, even though there is no flash. The menu will shown if I disable the ARI slider. See link here. Latest Technology tab is a dropdown menu. Please help.

Thanks.

Tony

This is the problem with site template styles. Add the next CSS rule to site template CSS file that fix it:

```
DIV.art-header
{
  position: relative;
  z-index: 1;
}
```

Hello,

Add the next CSS rule to site template CSS file:

```
#s5_header_wrap
{
  position: relative;
  z-index: 999;
}
```

Cool! Thanks!!

That fixed Chrome...

However, now in IE7 the whole header and menu is gone....

Hmm....

Add the next CSS rule:

```
#s5_header_wrap
{
  zoom: 1;
}
```

Absolutely perfect! THANKS!!!

I thank you for the prompt service in supporting a FREE extension. Wow. Thank you very much! I actually ordered a paid app from you after experiencing the prompt support to my earlier message, and am very impressed with the service and quality of the extensions here. You have a fan and a customer.

Thank you!
