
NEW EFFECT

Posted by fakie - 2011/05/12 11:13

Hello,

Great module but i would like suggest you a new effect please:

A simple Slide left to right or right to left

Many people like this simple effect !

Regards,

=====

Hi,

Solution found:

1°) Update the jquery.nivo.slider.js file with a new version (2.5.1 for example)
You can find it here: [HERE](#)

This version contain 16 jquery transition effects

2°) Update the mod_ariimageslider.xml file
- add line 85: AIM_EFFECT_SLIDEINLEFT for the slideinleft effect for example

Regards

Hello,

"ARI Image Slider" has been using Nivo Slider v. 2.5.1 since version 1.6.0. "ARI Image Slider" v. 1.6.1 supports "Slide in left" and "Slide in right" transition effects. The latest version of the module can be downloaded [here](#).

Regards,
ARI Soft

Hello,

Have you updated this right now cause i have downloaded it this morning and there was not this version (1.5.8)... only 14 effects... perhaps a downloading error by myself...

Regards,

Hello,

We released v. 1.6.1 several minutes ago.

Regards,
ARI Soft
