Hello,

Try to add the next CSS rule:

```
.nivoSlider .nivo-caption p
{
 color: red;
}
```

If it doesn't help, provide link to page where we can see the slider on your site.

Use the next CSS rule:

```
.nivoSlider .nivo-caption
{
 background-color: transparent;
}
```

For example you can use the next CSS rule instead of the previous CSS rule:

```
.nivoSlider .nivo-caption
{
 background-color: white;
}
```

and set "Opacity" parameter to "0.6" in module settings page.
