Links in .ini file not working

_____

I was able to make Search engine friendly html links work with ari slider, but when I use links from my joomla pages such as:

http://www.tacticalarts.com/index.php?option=com_content&view=article&id=112&Itemid=529

in my .ini file, it does not work.

I get this error message:

Warning: Error parsing /home/taa2/public_html/images/stories/slider/ariimageslider.ini on line 2 in /home/taa2/public_html/modules/mod_ariimageslider/mod_ariimageslider/kernel/Utils/class.AppUtils.php on line 31

I cannot change my site to use SEF urls or some of the features do not work properly. How can I link to pages or articles on my joomla site?

Thank you for any help!

Leslie

Here is my site:

Hello,

The INI file has incorrect format. Quotes should be double quotes. In other words use the next code:

01.jpg="CrossFit
Functional
Fitness
Short workouts that produce great results and never get boring. Become an athlete in a short period of time.
Read more"

instead of:

01.jpg="CrossFit
Functional
Fitness
Short workouts that produce great results and never get boring. Become an athlete in a short period of time.

When I put the ariimageslider.ini in my image folder it shows the following error

Warning: Error parsing /home4/hotchoco/public_html/medinox/images/stories/specialfront/ariimageslider.ini on line 12 in /home4/hotchoco/public_html/medinox/modules/mod_ariimageslider/mod_ariimageslider/kernel/Utils/class.AppUtils.php on line 34

Your INI file has incorrect format. It should look like:

specfront-1.jpg="http://www.medinox.co.za/index.php?option=com_content&view=article&id=59&Itemid=67"
specfront-2.jpg="http://www.medinox.co.za/index.php?option=com_content&view=article&id=59&Itemid=67"
