Nothing shows on position

Posted by volaboing - 2011/09/01 21:43

_____

Hi

I have installed image slide, but nothing shows up on the site. Imgae path is image/slides, which I have created in "media" and uploaded two pictures. But image slide only states "JFolder: :files: Path is not a folder. Path: images/slides". Can you help me?

Kind regards

Ulrik

_____

Hello,

Could you provide link to page where we can see the problem and temporary access to your J! backend by email so we could investigate the issue?

Regards,
ARI Soft
