Navigation arrows dissapear on hover

Posted by itechwebdesign - 2011/09/21 18:08

_____

Hi

I tried to play around with the .css file, but I can't get this to work.

When I hover over the "Navigation Arrows" on the slideshow they dissapear. How can I let them stay, please.

Regards

_____

Hello,

Add the next CSS rule:

.ari-image-slider .nivo-directionNav
{
 display: block !important;
}

Regards,
ARI Soft

Thank you for your feedback. Unfortunately that did not work either. When I move my mouse over the arrows, they disappear.

Regards

_____

Hi

It is on my local server. Can I send the link privately please.

Regards

_____

The guys at ARI Soft gave me the solution...

This problem with site template styles. Add the next CSS rules to "CSS Styles" parameter in module settings to fix the issue:

```
.ari-is-theme-square .nivo-directionNav A:hover,
.ari-is-theme-square .nivo-directionNav A:focus,
.ari-is-theme-square .nivo-directionNav A:active
{
 background-image: url(modules/mod_ariimageslider/mod_ariimageslider/js/themes/square/images/arrows.png) !important;
}

.ari-is-theme-square .nivo-directionNav A.nivo-nextNav
{
 background-position: -30px 0 !important;
}
```

Thanks a lot!
