Lines in image
Posted by rmeilech - 2011/09/27 23:02

_____

Everything works fine except that when the image changes, there are slice lines. These disappear just before a transition. But I don't want them there at all.

See http://joomla.shadik.com/

Please advise.

_____

Hello,

Could you provide a screenshot where we can see described problem?

Regards,
ARI Soft

_____

This one has vertical lines. Sometimes they form a checkerboard. You can see it for yourself at joomla.shadik.com.

Thank you. http://www.ari-soft.com/images/fbfiles/images/lines.jpg

_____

Chrome. I am not seeing it in Safari. Have not tested in IE or Firefox yet.

We have tried to reproduce the issue in Google Chrome v. 14.0.835.186, FireFox v. 6.0.2 and IE 9, but the slider works fine.

Regards,
ARI Soft

Hello,

Is browser's zoom set to 100%?

_____

Hi there,

i am having same problem. My site has been running fine for a good six months and it has only been recently that these lines are appearing.

I use firefox, always have so no changes have been made there.

Please advise. It's quite a bit more of an issue when you look at the site, it doesn't show well in image here.

Here is the site in question:

www.sarahbrodiephotography.com http://www.ari-soft.com/images/fbfiles/images/Picture_3.jpg

_____

Hello,

What FireFox version do you use?

PS: Provided page doesn't contains slider with an image like on provided screenshot.

Regards,
ARI Soft

_____

Hi there,

I use Firefox 8.0.1.

The link I gave you was to the index page. The issue lies in the other pages, where I display my images, accessible via the menu bar from the index page.

Otherwise here is a direct link here:
http://www.sarahbrodiephotography.com/index.php?option=com_content&view=article&id=5&Itemid=7

and here too:
http://www.sarahbrodiephotography.com/index.php?option=com_content&view=article&id=4&Itemid=6

Many thanks,
Sarah

_____

Download and upgrade the module. After this set "Bow rows" parameter to 5, it should help.

Regards,
ARI Soft

_____

Ok thanks, I will try this.

Can you please send me a link for upgrading - you mean upgrading the Ari Soft, yes?

Thanks,
Sarah

_____

Hang on... it's happening again. You say "Bow Rows" - do you mean perhaps "Box Rows".

Im any case, if this is what yo mean, I have set Box Rows to 5, and it's still no good:

http://www.sarahbrodiephotography.com/index.php?option=com_content&view=article&id=5&Itemid=7

Mind you, it only happens on some slide menus, in this case, my pet menu. The others seem fine. I had issues with the Landscape slide, but this seems ok now..

I uploaded new version fine, and from then assumed it would update all the Ari slides I have on my site - is this a correct assumption. Or is there more I should've done.

Thanks,

===
