
HELP! Images not showing in any IE version

Posted by alvarezcyberx - 2011/10/04 02:40

I just installed this and it's working fine in all browsers, except internet explorer (any version). No images show up when using IE. Please help me fix this issue. Thanks.

The site is <http://www.nugensmokes.com>

Hello,

This problem with your site template. It loads pngfix.js javascript in the next way:

but it should be loaded as:

PS: We suppose this code is located in index.php site template file.

Regards,
ARI Soft
