Hello,

ARI slider is blocking the dropdown menu list, when the transition is happening. The button next to "home" is a dropdown menu. Please help.

My site is here.

Thanks.

Hello,

Add the next CSS rule:

```
.header .ari-image-slider-wrapper
{
  z-index: 1;
  position: relative;
}
```

Thanks for the immediate response!

I added it but unfortunately, it hasn't fixed the problem. :(

It works fine for us. Try to clean browser's cache.
