## ARI Slide Blocking Drop Down Menu

Posted by amheck - 2011/10/13 20:47

---

I've been racking my brain as to why the ARI slide is blocking the drop down in the menu.

Help!

Here is the site.

Hello,

Provide your order number by email please.

Regards,  
ARI Soft

try setting the z-index in the style for your drop down to something higher then the slider, like 100 (Style="z-index:100;")
