Hi,

I just install the module and configured but i don't see any images.
Please find the screen as attached files.

Thanks

Hello,

Provide a link to a page where we can see the problem.

Common Joomla! modules parameter "Menu assignment -> Module assignment" is set to "No pages", it means the module will not be shown on every page. Set the parameter to "All pages" or choose appropriate pages where do you want to show the module.
