
Slider don't start

Posted by marub - 2011/11/14 08:57

Hi,

my slider on my page doesn't start automatically, and there are no forward/back buttons.

here the site <http://www.tre-pro.de>

best regards

Marcus

Hello,

The extension can't load necessary javascript and CSS files due to permissions error. Set appropriate permissions for \modules\mod_ariimageslider\mod_ariimageslider\js\ folder, sub-folders and files.

Regards,

ARI Soft
