
pb with navigation arrows on IE

Posted by duvamat - 2011/11/20 10:12

Hi,

I love your extension and I want to keep on using it on my websites, but I have a problem on IE : navigation arrows only show once (on the first picture of the slider), then they won't display. Everything works fine on Safari or FF... Any idea ?

Here's a link to the website :

<http://www.bussus-bussuel.fr/index.php>

Also bullets don't appear on IE...

Try to add the next CSS rule:

```
DIV.nivo-directionNav {  
  z-index: 99 !important;  
}
```

Regards,
ARI Soft

Great ! It works as expected.

Thanks for your support !!!

Regards,

Mathieu.
