
path to the Joomla_dir/ ?

Posted by jcpop - 2011/11/22 00:49

Hello, and sorry for being completely new to both Joomla and Ari Image Slider...

Installed the module, configured it but i don't understand where i should upload the pictures I want to see : where is the joomla_dir folder ?

For the screen shot i sent : i want to use image1, image2, image4

I've created a folder image/slide3 where I have also uploaded a picture, but it doesn't work either

Thanks in advance...

Hello,

Images can be upload with help Joomla! media manager or a file manager extension like eXtplorer.

If something doesn't work, provide a link to a page where we can see a slider and screenshot(s) of module setting page. You can provide this information by email.

Regards,
ARI Soft
