Now my image and description are appearing at same time. Is there a way that my description is loaded 2 seconds after image is loaded.

Something like this

1. First image is loaded
2. After 2 seconds description is loaded
3. Image and description fades out at the same time
4. Second image is loaded
5. After 2 seconds description is loaded
- ...

Hello,

Sorry, but the extension doesn't support this ability.
