new.anglianpotters.org.uk

Is the start point of the description specified anywhere?

I have configured the .ini file but cant see the description anywhere.

Thanks for your help.

Great module and so easy to configure.

Hello,

A link to a sample INI file can be found on module settings page in "Description" field. INI file should be located in folder with images.

Hi,

Thanks for the fast response. That worked.

But my syntax for the .ini file is incorrect it seems. I get this error above the image.

Warning: Error parsing /homepages/20/d95961988/htdocs/Nov2011/images/slides/ariimageslider.ini on line 3 in /homepages/20/d95961988/htdocs/Nov2011/modules/mod_ariimageslider/mod_ariimageslider/kernel/Utils/class.AppUtils.php on line 34

Great support!
Thanks

as suggested in the help file, I modified the sample file to use file name as the title.
so, not sure why this is not working unless I am missing something.

Fatal error: Class 'AriUtils' not found in
/homepages/20/d95961988/htdocs/Nov2011/modules/mod_ariimageslider/mod_ariimageslider/kernel/ImageSlider/class.I
mageSlider.php on line 162

now the page completely doesn't load with the above error.

Thanks!

I reinstalled the module and the above error disappeared.
corrected the .ini file as below according to sample file.
still cant see image description.
