
Sorry... Another image description problem

Posted by David J - 2012/01/19 15:52

Hi Great slide show!

I believe I have done everything correctly. My problem is none of the descriptions display apart from the last one in the ini file. There are 39 images and I even tried with just 3 images and 3 descriptions in the ini but the same issue.

Test site is here: <http://dijitalmedia.co.uk/black-canyon/index.php/gallery>

Last lines of ini file are here. 'Only Epic train crossing' ever shows

Thanks

David J

sedona-4.jpg="Helicopter journey"

sedona-5.jpg="Sedona sunset!"

harleys.jpg="no text"

landscape.jpg="Such an incredible road trip!"

rail-crossing.jpg="Epic train crossing"

Hello,

Content of an INI file is incorrect. Use the next content:

sedona-4.jpg="Helicopter journey"

sedona-5.jpg="Sedona sunset!"

harleys.jpg="no text"

landscape.jpg="Such an incredible road trip!"

rail-crossing.jpg="Epic train crossing"

Regards,

ARI Soft

Thanks

I didn't realise that was the format.

All working fine now!

Regards

david J
