
ARI Image Slider over my dynamic menu

Posted by xmcamino - 2012/01/26 00:12

Hello friends,

I installed Ari Image Slider in <http://www.sanpedrodelurin.edu.pe/index.php> in the breadcrumb position and all it was ok, but now, my image slider appears over my dynamic menu. I dont know why because I dont changed anything. Could you help me please?

Regards,
MAC

Hello,

What browser do you use? It works fine in FireFox 9.
