How remove \"Read more about this project\" ?
Posted by YooHappy - 2012/01/29 14:54
_____

Hello,

I'm a new member of this forum.
I want to know how can I remove appear when we mouseover the button previous or next : "Read more about this project".

If it's impossible to remove it, I want to change the text.

I have searched on the module folder, language folder... I didn't found anything.

Does someone can help me, please ? http://www.ari-soft.com/images/fbfiles/images/text_to_change.jpg

Hello,

Provide a link to a page where we can see described problem. Original version of the module doesn't add the message.

Regards,
ARI Soft

Hello,

Thanks for responding.

I spend many times to search and it's true, that this label not from ari image slider.

The provider of the template had put it on index.php :angry:

 var $j = jQuery.noConflict();

 preloadImages();

 $j(window).load (function(){

  $j(".nivoSlider a").attr("title", "Read more about this project");

 });

So, I made changes and it works.

Thank again.
