## Any Way To Remove Dropshadows?

Posted by NickD76 - 2012/02/04 18:51

---

Hi, Thanks for releasing such a great contribution to the Joomla community.

I have installed the module on a site I am building, but the drop shadows don't really match the rest of the flat white template so I would like to remove them. Please could you let me know how to go about this?

I found it:

/modules/mod\_ariimageslider/mod\_ariimageslider/js/themes/default/style.css
