Add the slider within a table

Posted by AlexII - 2012/02/04 19:39

_____

Hello,

Is it possible to let me know how I can add the slider in a bigger table.For example I would like to add this div class for the slider but I don't know how.

And then in personal.css
I would like it to pick up this:

.header-box {
width: 974px;
margin: 0 auto;
overflow: hidden;
}

.header-left-box {
 width: 630px;
 float: left;
}

Thank you in advance

_____

Hello,

If you want to change HTML template of the slider, see \modules\mod_ariimageslider\tmpl\default.php file.

Regards,
ARI Soft
