
the link is not working

Posted by loudy - 2012/02/06 21:39

Hello, I have Joomla 2.5 and I install ARI Image Slider,
the slideshow work perfect, the only thing that I'm looking for is:\
Can make the slideshow that if people click on it during sliding at any picture, it will take them to the HOME page.

I have tried to to add the link on Custom link target, but did not work,
also I tried the Default link and did not work.

in simple request, all I need that anyone when click on the slide it take them to the home page. is that possible.

Please help.

Hello,

Could you provide a link to a page where we can see a slider?

The problem should be resolved with a new version of the extension.

Hi , I have problem with link in Ari Image Slider.

I have two images in ARI slider on web : www.stelle.sk
Images are : 1. homepage.png
2. valentin.jpg

I have in ariimageslider.ini this text :

```
valentin.jpg=""
```

```
valentin.jpg="http://www.stelle.sk/akcia.html"
```

```
valentin.jpg="Akcia ValentĎ½n"
```

but link not working. Why ?:

Thanks

Hello,

INI file should be located in folder with images.
