
Slideshow shows up but no images showing

Posted by melisman9 - 2012/05/10 19:23

I just installed the module, set the image path to images/SlideShow however when I look at my site there is only an empty box with no images any ideas what might be happening?

Hello,

The page doesn't contain "ARI Image Slider" module.

The slider shows nothing because it doesn't contain images. It seems the module is configured incorrectly. Check value of "Image path" parameter in module settings.
