Not show slider when using joomlashopping

Posted by windyhuynh - 2012/05/25 08:31

_____

I had error when I using ARI Image Slider. Please see it in link following:...
I think this bug relate to jquery conflict. I hope you will help me resolve the bug. Thanks u and have a nice day.

_____

Hello,

It is not "ARI Image Slider" issue. This problem with site template javascript code. It uses MooTools library, but MooTools is not loaded on the page. It can be disable in site template or disabled by a 3rd party extension. Contact site template developers so they fix this problem.

Regards,
ARI Soft
