## Ari Slider Suddenly Stopped Working!

Posted by NuVibe - 2012/10/27 03:15

---

My slider was working fine for a few days. But now I only get a rotating swirl as if it is loading but it never loads. My website is [www.NuVibeRadio.com](http://www.NuVibeRadio.com) PLEASE HELP!

SOLVED! I traced it to settings in my hosts server app that was using synchronous loading of the scripts in order to speed up page loads. I disabled the feature and problem was solved.

Hello,

You can try to set "Load jQuery method" parameter in module settings to "Load jQuery method" value.

Regards,  
ARI Soft
