
Thumbnail image removal

Posted by cmh73 - 2012/10/30 20:08

Hi

I'm sure it's something I've done wrong but there is a thumbnail image that appears in the top left of the main slider image.

<http://cheetah.arvixe.com/~esman/>

The thumbnail options are set to No in the setup.

Any help would be great.

Cheers

Colin

Hello,

This problem with the following custom CSS rule which is used on your site:

```
img
{
  max-width:100% !important;
}
```

Add the following CSS rule to fix the problem:

```
.nivoSlider img
{
  max-width: none !important;
}
```

Regards,
ARI Soft

Hi,

That's great, works a treat!!

Thanks for the quick response and thanks for the great module!!

Cheers

Colin
