
No links, no shadows, no resize in IE8

Posted by sberry - 2012/11/05 00:00

Hi all,
i have a strange problem with your module.

It works perfectly on Chrome and on Firefox and it resizes correctly as expected on these browsers.

On IE8 the module loads and i can see the images rotating but i can't click on them, i can't see shadows, and it doesn't resizes as expected... how can i resolve this strange problem?

My site is: www.desilab.com

Thank you in advance

Hello,

IE 7, 8 don't support CSS 3 so the shadow is not shown in these browsers. "Responsive" feature works in IE 9+, you can find it in description of the module here:

<http://www.ari-soft.com/images/fbfiles/images/slider-860d493e68120056af857fe986995838.jpg>

We will investigate the problem with links and report about results soon.

Regards,
ARI Soft

Download and upgrade the module. New version contains fix for the problem with links in IE browsers.

WOW...very quick support!

Now the links works correctly, thank you!
