Path is not a folder

Posted by Peghie - 2013/01/25 17:47

_____

Hello,

I installed ARI Image Slider in Joomla 2.5.8.

On my home page I can see the slider which is working, but I cannot see images.

I used /images/slides for putting the images (.jpg files)in.

Please, can anybody help me?

Thanks,
Peghie

_____

Hello,

Provide screenshot(s) of module settings page and a link to a page where we can see the problem.

Regards,
ARI Soft

_____

Hello,

Use images/slides value for "Image path" parameter.

Regards,
ARI Soft

_____

Enter path to folder(s) where images are located in "Image path" parameter in module settings.

You can upload images via Joomla! media manager or use a file manager extension like eXtplorer.
