
Images not display on Contact Page

Posted by stefanfrei - 2013/02/03 19:28

Hi,

on every page the images appear but on the contact-page only the loading-icon.

Here its fine <http://www.kamptalnet.at/cms>

And here its broken <http://www.kamptalnet.at/cms/kontakt/adresse>

Any Ideas why ?

The Module is published on every page.

Thanks for help.

Hello,

It is a javascript conflict. Disable loading of jQuery library in "ARI Image Slider" module settings.

Regards,

ARI Soft

Thanks,

but when disabling JQuery than it isnt displayed on all other sites.

It appears only on the contact page.

Should i create 2 Modules with different settings (one for the contact and one for the rest) ?

Why is there JavaScript conflict? Is Image Slider not fully compatible to Joomla 3.x ?

Thanks,Stefan

This conflict with site template. Download and upgrade the module. After this set "Load jQuery Method" parameter to "Local copy". It should help.

Hello,

I have same problem: <http://pegasoalimentari.com/en/contact>

but those two solutions do not help :(

Hello,

The page doesn't contain "ARI Image Slider" module.

Hello,

it was disabled. Now is enabled :) Would you please take a look again.

Now it appears but doesn't show pictures:

https://farm8.staticflickr.com/7053/13900207576_77d61a9abe_c.jpg

This is how control panel looks like:

https://farm8.staticflickr.com/7380/13923335613_545a135c9c_c.jpg

Than you :)

The page contains javascript error (you can see it in browser's error console) and it prevents execution of "ARI Image Slider" javascript code. The error occurs because jQuery library are loaded twice on the page. One time jQuery is loaded using Joomla! API and another copy of jQuery is loaded by a 3rd party extension and it causes problem with other extensions on the page.
