
Image Links not visible or working

Posted by mo1975 - 2013/02/11 14:46

Thanks for Image Slider - seems really good. But I'm still learning :) Have created INI file and uploaded to media manager folder with images and other settings seem right, but no links/titles appear on the 'slideshow'. What am I missing?

Screenshots and link attached:

Thanks in advance

Hello,

INI file should be located in folder with images. In your case it is /images/stories/ folder.

Regards,
ARI Soft
