AIS - I.E. Links Broken, iPad Images not showing

Posted by HardRom - 2013/03/24 17:53

_____

I've noticed that the images are not clickable (for lightbox or linking) in I.E. 10 *and maybe others.

Also- I tried testing the site I've been fixing with my iPad and the images don't show up at all- it just kind of shuffles the screen down and back up every X seconds.

I greatly appreciate any assistance.

site:
http://www.district8-legion.ca
(I am volunteering my time for the Canadian Legion)

_____

Hello,

Download and upgrade the module. After this clean browser's cache. It should help.

Regards,
ARI Soft

_____

Gotcha- I was running 2.0.7 and the new one is 2.1.0

Seems to work for IE now.

Thanks for the help.
